📦 INTERNSHIPS AND PROJECTS

Projects	**Identification Of Emotions in Social Media** (Duration January 2021 - June 2021) Web application is a part of this project. In this project the social media posts are considered. Social Network Sites (SNS) is a source of data and screening tool to classify the users according to user generated contents (UGC). By using natural language processing, social media posts can be classified into happy, depression related posts. Skills used - Python,Artificial Neural Networks,Keras,Natural Language Processing,Artificial Intelligence **Wave Portal** (Duration November 2021 - November 2021) WavePortal it will be a place where anyone on the internet can learn a little about who you are and send you a wave + a message and have that data saved on the blockchain through an Ethereum smart contract. (A smart contract is basically code that lives on the blockchain you can read and write from). You will be writing + deploying the smart contract and you will also be building the website that will let people actually connect their wallets and interact with your smart contract. Basically, when someone waves at you there is a random chance they can win a small amount of (Testnet Rinkeby Network) Eth from your site. Skills used - Solidity,Javascript,React.Js,HTML,CSS **Personal Website** (Duration May 2022 - June 2022) This is a Personal Website developed using Html,Css & Javascript. But this is still in development only the responsive part is remaining. Skills used - Html,CSS,Javascript **Hangman game using python** (Duration December 2021 - December 2021) Built a small Hangman game using Python to test my skills and understand the concepts of python language. Skills used - Python **Linkedin Clone** (Duration June 2022 - July 2022) I try creating a Linkedin clone using Reactjs , Redux and Firebase. It is still in development. Skills used - React.Js,Redux,Firebase,CSS,Html5 **Chat App using Nextjs** (Duration February 2022 - February 2022) I tried Nextjs for the first time and use Chat engine It was a good experience and the app was smooth to use. Skills used - React.Js
